SUNDAY 08 SEPTEMBER

WELCOME EVENT

Offloading Workshop with A/Prof Jaap van Netten
HSW: Howard's Hall West 2:00pm - 5:30pm

DFA 2019 Welcome for Full Conference Delegates
HSW: The Rivershed - 5:45pm to 8:00pm

MONDAY 09 SEPTEMBER

7:30 8:30
Conference Registration and Trade Exhibition open

8:30 8:35
Acknowledgment of Country with Professor James Charles (HHW)

8:35 8:45
Official Conference Opening with ADS CEO Associate Professor Sof Andrikopoulos and DFA Chair Dr Pete Lazzarini (HHW)

THE ULCER

Wound Assessment & Treatment (HHW)

8:45 9:05
Professor Fran Game (United Kingdom)
New global wound guidelines: What should we be putting on foot ulcers now?

9:05 9:25
Professor Stephen Twigg (Australia)
What are biomarkers telling us about foot ulcer management now and into the future?

9:25 9:45
Professor Rob Fitridge (Australia)
The Global Vascular Guidelines for Chronic Limb-threatening Ischaemia and the IWGDF guidelines- what do they mean for vascular assessment in real world practice?

9:45 10:15
Professor Fran Game (United Kingdom)
New global prevention guidelines: What should we be doing to help our patients prevent foot ulcers now?

10:15 10:30
Panel discussion with interactive Q&A

10:30 11:00
MORNING TEA & EXHIBITION (HHE)

WORKSHOPS

THE INFECTION (HHW)

11:00 12:30
When is enough - enough!
Join Professor Larry Lavery, Professor Eric Senneville, Dr Sarah Coghill and Dr Matt Malone for an interactive workshop focused on infection case studies and discussion.

THE PERFUSION (RSW)

Interpreting vascular investigations from a multi-disciplinary perspective.
Join Professor Rob Fitridge and Dr Beatrice Kuang for an interactive workshop with case studies and discussion.

THE ULCER (BH)

How would you manage that difficult wound?
Join Professor Fran Game and Dr Pete Lazzarini for an interactive workshop with case studies and discussion.

THE PRESSURE (RSE)

How would you offload that?
Join A/Professor Jaap van Netten and A/Professor Karl Heinz Schott for the latest in 3D scanning offloading technology, case studies and discussion.

12:30 13:30
LUNCH, POSTERS & EXHIBITION (HHE)

BREAKOUTS

ABSTRACT SESSION 1 (RSW)

13:30 13:45
Professor Larry Lavery (1)
University of Texas South Western Medical Centre

13:45 14:00
Saskia Schwarzer (2)
South West Sydney Limb Preservation Research

14:00 14:15
Brian Martin (3)
Nepean Hospital

14:15 14:30
Adriaan Erasmus (4)
Liverpool Hospital High Risk Foot Service

14:30 14:45
Peter Speck (5)
Finders University

14:45 15:00
Michael Radzieta (6)
Western Sydney University

ABSTRACT SESSION 2 (RSE)

Damien Clark (7)
Queensland University of Technology

Christopher Si (8)
Royal Perth Hospital

Julia Zhu (9)
National Healthcare Group Polyclinics Singapore

Yuqi Zhang (11)
Queensland University of Technology

Donna Angel/Christopher Si (10)
Royal Perth Hospital

Professor Larry Lavery (12)
University of Texas South Western Medical Centre

WORKSHOP 13:30 - 14:15 (BH)

SIPC Therapy Worshop with Margo Asimus

WORKSHOP 14:30 - 15:00 (BH)

APodA Career Framework in High Risk Foot with Cindy Laird

15:00 15:30
AFTERNOON TEA & EXHIBITION (HHE)

THE PATIENT

Understanding patient behaviour and adherence (HHW)

15:30 15:50
Associate Professor Jaap van Netten (Netherlands)
New global prevention guidelines: What should we be doing to help our patients prevent foot ulcers now?

15:50 16:10
Pam Chen (Australia)
Simple communication is no mean "feet”

16:10 16:30
Associate Professor James Charles (Australia)
How should we engage our Indigenous patients in diabetic foot care?

16:30 17:00
Associate Professor Jaap van Netten (Netherlands)
How will we engage our diabetic foot patients to adhere in the near future?

17:00 17:15
Panel discussion with interactive Q&A

18:30 22:30
INTERACTIVE DINNER @ THE FANTAUZZO
### TUESDAY 10 SEPTEMBER

**Breakfast Workshop (RSW)**
- Life changing decisions in DFU management with Prof Fran Game, Mr Jeff Peters, Dr Jenny Prentice & Mr Emilio Galeo

**Breakfast Workshop (RSE)**
- T.I.M.E and complex case study management using PICO with Dr Matthew Malone & Saskia Schwarzer

---

**Exhibition** (HHE)
- **7:30 - 8:30**: Registration and Trade Exhibition open

**The Infection**

**Awards and Conference close** (HHW)
MONDAY 09 SEPTEMBER

ABSTRACT SESSION 1

Professor Larry Lavery (1)
University of Texas South Western Medical Centre
Saskia Schwarzer (2)
South West Sydney Limb Preservation Research
Brian Martin (3)
Nepean Hospital
Adriaan Erasmus (4)
Liverpool Hospital High Risk Foot Service
Peter Speck (5)
Finders University
Michael Radzieta (6)
Western Sydney University

The infected diabetic foot: Incidence and recovery of acute kidney injury in patients with and without diabetes.
Analysis of proximal "clean" bone margins in diabetic foot osteomyelitis by conventional culture, DNA sequencing and microscopy.
Management of diabetic foot osteomyelitis with interosseous drilling and biphasic antibiotic impregnated bone graft substitute: Techniques and early results.
A Prospective Audit of the Antibiotic Management of Patients with Diabetic Foot Infections in a High-Risk Foot Service.
Efficacy of Phage AB-SA01 Therapy in Diabetic Mice Skin Wound Infections caused by Methicillin Resistant Staphylococcus aureus (MRSA).
Why do some patients with Diabetic Foot Ulcers develop infection? Analysis of the Microbiome between infected and non-infected DFUs.

ABSTRACT SESSION 2

Damien Clark (7)
Queensland University of Technology & MNHHS
Christopher Si (8)
Royal Perth Hospital
Julia Zhu (9)
National Healthcare Group Polyclinics Singapore
Donna Angel - Christopher Si presenting (10)
Royal Perth Hospital
Yuqi Zhang (11)
Queensland University of Technology
Professor Larry Lavery (12)
University of Texas South Western Medical Centre

Using Foot Selfies to Promote Diabetic Foot Ulcer Self-Care: Emerging Findings from the MyFootCare App Field Study.
Clinical outcomes following transmetatarsal amputation in patients with diabetic foot disease.
Characteristics of diabetic foot ulcers and predictive factors of healing in primary care.
Lessons learnt using Integra® dermal replacement in high-risk foot and complex lower leg wounds.
Epidemiology of diabetes-related foot disease and amputation in Australia: a systematic review.

TUESDAY 10 SEPTEMBER

ABSTRACT SESSION 3

Professor Vivienne Chuter (13)
University of Newcastle
Annie Walsh (14)
Liverpool Hospital High Risk Foot Service
Amelia Tobias (15)
National Referral Hospital Solomon Islands
Alex Barwick (16)
University of Newcastle
Peta Tehan (17)
University of Newcastle

Foot type, joint range of motion and plantar pressures in community dwelling adults with type 2 diabetes.
A referral pathway for patients attending the emergency department with an acute high risk foot pathology.
The effectiveness of a low cost and modified Total Contact Cast Technique to control infection and treat DFU in isolated indigenous communities to prevent late presentation and amputation: Experience from The Solomon Islands.
Diagnostic Accuracy of the Postexercise Ankle-Brachial Index for Detecting Peripheral Arterial Disease in Diabetes.
How sensitive and specific is continuous wave Doppler for detecting peripheral arterial disease in people with and without diabetes? A cross-sectional study.

ABSTRACT SESSION 4

Michaela Watts (18)
National Association of Diabetes Centres
Dr Namson Lau (19)
Ingham Institute of Applied Medical Research
Tracey Lyon (20)
Queensland University of Technology
Julia Yuncken (21)
Monash University
Emma Macdonald (22)
La Trobe Rural Health School

National Associations of Diabetes Centres (NADC) Collaborative Interdisciplinary Diabetes High Risk Foot Services Standards and Accreditation Pilot Program.
Acute diabetic Charcot Neuroarthropathy: six months of measured quality of life.
A systematic review of motivational interviewing training outcomes for health practitioners treating persons with diabetes.
Diabetes education retention: A Systematic Review.
Smart insole adoption intentions in podiatrists who treat people with diabetes. A mixed methods study.
